

**MONTHLY WEATHER REVIEW - ARMIDALE NSW**  
**JANUARY 2022**

January 2022 was a warm and cloudy month with good falls of rain.

The rainfall total of 103.0 millimetres was just two mm higher than the average with most of the rain falling in the first 16 days of the month.

It was an unusually cloudy month with only four sunny days which meant day temperatures were cooler than normal while overnight minimums were milder than normal. Temperatures reached 30 degrees on only one day, the 17th. There were no notable temperature extremes.

Winds were predominantly light to moderate easterlies which is normal during the summer months.

There were thunderstorms on six days, and no hail was observed with any of the storms.

***Noteworthy events:***

**1st** - Showers developed over the Northern Tablelands as a result of humid easterly winds and a low pressure trough over western New South Wales. A heavy downpour over Armidale dropped 40.6 mm of rain at the city weather station in a little over two hours between 11.40am and 2pm. This was Armidale's highest daily fall of rain since 18th January 2020 (61.8 mm). The rain was lighter at the Armidale airport which recorded 25.6 mm for the same period.
