

MONTHLY WEATHER REVIEW - ARMIDALE NSW
JUNE 2024

June 2024 was a cold and cloudy month with mostly light falls of rain.

With numerous low pressure troughs developing over northern New South Wales during the month, cloudy conditions prevailed on all but nine days. The total rainfall of 38.0 millimetres, however, was still 16 mm lower than the average. Daily falls were light with the exception of 18.6 mm on the 2nd.

Temperatures were close to normal throughout the month with no notable extremes. There were four cold days with maximum temperatures below 10.0C.

Despite the cloudy conditions there were 19 frosts, but only three of them were severe (minimum below -3.9C).

Winds were predominantly light westerlies which is normal for this time of year, there was one thunderstorm, and no hail or snow.

There were no noteworthy events.
